The 1st International Workshop on Computer Sciences and Information Technologies for Education will be held on December 16-19, 2015 at Jeju National University International Center, Jeju Island, Korea

The 1st International Workshop on Computer Sciences and Information Technologies for Education will be the most comprehensive workshop focused on the various aspects of advances in Computer Sciences and Information Technologies for Education. Our workshop provides a chance for academic and industry professionals to discuss recent progress in the area of Computer Sciences and Information Technologies for Education.

The goal of this workshop is to bring together the researchers from academia and industry as well as practitioners to share ideas, problems and solutions relating to the multifaceted aspects of the Computer Sciences and Information Technologies for Education.

TOPICS

Massive Open Online Courses
Education Tools and Technology
Asynchronous Learning Tools and Technology
Multimedia Presentation and Management
Distance Learning Contents and Management
Intelligent Training Technology
Blended learning Contents and Management
Authoring Technology and Tools
Virtual Student Laboratories
Virtual Classroom and Virtual Universities
Industry-university Partnership
Creating courses on-line
Assessment Tools and Technology
Communication Technology for Education and Training
Development and use of IT Tools and Environments
Quality Management for Education
Interactive Learning Tools and Technology

PROCEEDINGS

1. Conference proceedings:

All papers accepted and registered will be included in ASTL series published by SERSC. The proceedings of the conference will be submitted to EI and SCOPUS evaluation.

Proceedings will be distributed at the conference registration desk.

2. Journal Publish:

All good papers will be recommended to be included in one of international journals after revision and extension.

- Future Generation Computer Systems (indexed by SCIE)
- Integrated Computer-Aided Engineering (indexed by SCIE)
- International Journal of Distributed Sensor Networks (indexed by SCIE)
- International Journal of Neural Systems (indexed by SCIE)
- International Journal of Hybrid Information Technology (indexed by EI)
- International Journal of Multimedia and Ubiquitous Engineering (indexed by SCOPUS and EI)
- International Journal of Smart Home (indexed by SCOPUS and EI)
- International Journal of Future Generation Communication and Networking (indexed by EI)
- International Journal of Grid and Distributed Computing (indexed by EI)
- International Journal of Database Theory and Application (indexed by EI)
- Information (indexed by SCOPUS)
