Abstract

The purpose of this study are: 1) To menegtahui Influence of Principal Leadership and Student Motivation together towards Achievement in Primary Schools Sports Pusri Palembang ; 2) To Learn Principal Leadership Influence on Primary School Achievement in Sports Pusri Palembang ; 3) To students know the effect of the Achievement Motivation in Primary Schools Sports Pusri Palembang. Research results obtained regression equation $Y = 1.827 + 1 + 0.040 X_1, X_2 368 + e$ whereas hypothesis testing can result in : 1) Principal Leadership and Student Motivation Influential significant achievement in elementary Pusri Sports Palembang . 2) Principal Leadership Influence significant achievement in elementary Pusri Sports Palembang . 3) Student Motivation no significant effect on achievement in elementary Pusri Sports Palembang. Dvice for academic research in order to increase the repertoire of knowledge especially related to Sports Achievement, Leadership and Motivation.

Keywords : *Principal Leadership, Student Motivation, Achievement Sports*

1 INTRODUCTION

Principal is a leader who is an organ that is supposed to influence the attitudes and behavior of subordinates. In this case the target is the teachers who are expected to enhance the work after obtaining the influence of superiors. To be able to influence the process goes smoothly, then the leader must treat people humanely. Sporting achievement in elementary Pusri Palembang academic year 2012/2013 is not obtaining optimal results. This can be seen in the results of the match selection Kalidoni O2SN district level in March 2013. On that occasion, SD Pusri send 112 participants with details of sports are: badminton, swimming, football, volley ball mini, athletics, karate, pencak martial arts, chess, tennis courts. Table tennis and sepak takraw. Selection results suggest that, of the 112 participants were only 5 people with sports swimming, badminton, tennis, and karate that can represent districts in the match O2SN Kalidoni city level. In order to increase student motivation and determine the success of student achievement, it is necessary to include performance appraisal exercise within a specified period. Many factors influence student motivation in the sporting achievements,

for example, the willingness of students to develop a hobby / talent that already exists, the presence of supporting infrastructure that facilitates the activities of sports, competition routine that can be followed by the students, the desire of students to the name of the school in a sports competition, the existence of the school awards are given to students who excel sports.

Corresponding restrictions on the problem that has been found above , the research problem can be formulated as follows :

1. Is there an effect of Principal Leadership and Student Motivation together towards Achievement in Primary Schools Sports Pusri Palembang ?
2. Is there an influence of the Principal Leadership Achievement in Primary Schools Sports Pusri Palembang ?
3. Is there an effect on the Achievement Motivation of Students in Primary Schools Sports Pusri Palembang ?

The purpose of this study was to determine :

1. Influence of Principal Leadership and Student Motivation together towards Achievement in Primary Schools Sports Pusri Palembang.
2. Influence of Principal Leadership Achievement in Primary Schools Sports Pusri Palembang.
3. Effect of Motivation on Student Achievement in Primary Schools Sports Pusri Palembang.

2 RESEARCH METHODOLOGY

2.1 Place and Time Research

Where the research was conducted in elementary schools Pusri Palembang. Waktu research carried out for 4 (four) months from the start to the process of planning , execution , to reporting results.

2.2 Population and Sample

The population of the study are all primary teachers Pusri Palembang totaling 50 people. Of the 50 teachers, which will be sampled are 3,4,5 and 6 classroom teachers, it This is caused by a class that already has the achievement is class. Consequently, the respondents were 24 teachers, and all of which were sampled in this study. The technique used is a saturated sample, where all respondents were sampled.

2.3 Method of Data Analysis

To provide the results of an analysis of the research data is more perfect, statistical analysis requires two approaches, namely statistical analysis descriptive and inferential statistical analysis.

3 RESULTS AND DISCUSSION

3.1 Effect of the Principal Leadership Performance Sports in SD Pusri Palembang

Based on calculations of the effect of school leadership on student achievement suggests that exercise hypothesis is accepted . This value is based on the results of the calculations show that the value of the principal's leadership Sig.t smaller than the value of α . The influence of school leadership with a positive performance in sports is.
