To: Darius Antoni <darius.antoni@binadarma.ac.id>

Dear Mr. Darius Antoni:

Thank you for registering your paper 1570558735 (*The Role of IT Infrastructure Capability in Shared E-Government Concept*) to **2019 International Conference on Electrical Engineering and Computer Science (ICECOS)**. You still have to upload your manuscript at <https://edas.info/uploadPaper.php?m=1570558735>. Your manuscript can be application/pdf and application/msword.

You can see all your submissions and their status at

<https://edas.info/index.php?c=25977>

using your EDAS user id darius.antoni@binadarma.ac.id.

Once you upload your manuscript, you will receive another email confirmation.

Regards, The conference chairs

Darius Antoni <darius.antoni@binadarma.ac.id>

Dear Mr. Darius Antoni:

Congratulations - your final manuscript submission #1570558735 ('The Role of IT Infrastructure Capability in Shared E-Government Concept') for ICECOS 2019 has been accepted for presentation in The International Conference on Electrical Engineering and Computer Science (ICECOS 2019) in Batam, Indonesia.

Please, re-write your manuscript to minimize the similarity index under 20% since we found your manuscript had 21% of similarity.

During the preparation of your final manuscript for Conference Proceeding, please consider the following steps;

1. It is very important that you follow the suggestions indicated in the reviews during the preparation of the camera-ready. Please note that the deadline for uploading the final manuscript is September 15, 2019.
2. Your submission MUST adhere to the IEEE Xplore PDF specification for compatibility. IEEE PDF compliance must be checked through the IEEE PDF eXpress web site http://icecos.unsri.ac.id/2019/?page_id=510 (it could be performed starting from August 1, 2019)
3. Complete the payment of Registration fee and the IEEE copyright form.
4. Follow the IEEE format and preparation guidelines for the proceedings, which are available at http://icecos.unsri.ac.id/2019/?page_id=381
5. Only registered and presented papers will be submitted to IEEE Xplore. To complete the registration, click the registration link http://icecos.unsri.ac.id/2019/?page_id=44
6. Send the registration payment receipt to icecos@conf.unsri.ac.id

As the Chairman of the Organizing Committee, we would like to mention our appreciation for the support given to the conference.

Should you have any question regarding the camera ready submission and registration, please do not hesitate to contact the secretariat.

We are looking forward to seeing you at the ICECOS 2019.

Regards,
The conference chairs

===== ICECOS Review 1 =====

> *** Weak aspects: Comments to the author: what are the weak aspects of the paper?

- 1) Why not use the title: "A Literature Review of IT Infrastructure Capabilities in Shared e-Government Concept in Indonesia".
- 2) There are many grammatical error and typos
- 3) The paper is not well organized, so there are many inappropriate paraphrases and non-flowing paragraphs.
- 4) Problem statements described in the Introduction are unclear and focused.
- 5) To obtain originality, complete the study with one or two related works and compare them.
- 6) Give a brief description of the method to support the purpose of the study.
- 7) I suggest, heading of "Literature review method" should be replaced with "methodology"
- 8) Explain what are the objects of this literature review. It is recommended to include definitions of the terms used.
- 9) Follow the template used (IEEE style), such as alignment for paragraphs, heading, etc.
- 10) The paper should review more recent literature (last 5 years).
- 11) In conclusion, the research suggests the framework or concept of better strategies and policies for continuous e-government development in Indonesia. There is no section found in this paper that describes a framework or a concept of those strategies.

> *** Recommended changes: Recommended changes. Please indicate any changes that should be made to the paper if accepted.

- 1) Fix all errors in this paper according to the note of weakness above.
- 2) Use help from English language expert or grammar tools.
- 3) Improve this paper so that it is better organized and comfortable to read
- 4) Make the keywords more specific.

> *** Relevance and timeliness: Rate the importance and timeliness of the topic addressed in the paper within its area of research.
Good (4)

> *** Technical content and scientific rigour: Rate the technical content of the paper (e.g.: completeness of the analysis or simulation study, thoroughness of the treatise, accuracy of the models, etc.), its soundness and scientific rigour.
Marginal work and simple contribution. Some flaws. (2)

> *** Novelty and originality: Rate the novelty and originality of the ideas or results presented in the paper.
Minor variations on a well investigated subject. (2)

> *** Quality of presentation: Rate the paper organization, the clearness of text and figures, the completeness and accuracy of references.
Readable, but revision is needed in some parts. (3)

===== ICECOS Review 2 =====

> *** Weak aspects: Comments to the author: what are the weak aspects of the paper?

- The authors do not follow the template, such as the placement of the sub chapter I, II, it should be "center text"
- There are still some grammatical errors and words writing errors, such as "approach" in the last line of the Literature review.
- The literature review is too short to show the state of the art of the research.
- The authors do not have consistency in writing, as in the writing of Figure 1 in the paragraph, and Fig. 1 in the name of the figure.

> *** Recommended changes: Recommended changes. Please indicate any changes that should be made to the paper if accepted.

- omit of using references in the abstract
- proofread your paper
- Explore and show more about the importance of your research

> *** Relevance and timeliness: Rate the importance and timeliness of the topic addressed in the paper within its area of research.
Little (2)

> *** Technical content and scientific rigour: Rate the technical content of the paper (e.g.: completeness of the analysis or simulation study, thoroughness of the treatise, accuracy of the models, etc.), its soundness and scientific rigour.
Marginal work and simple contribution. Some flaws. (2)

> *** Novelty and originality: Rate the novelty and originality of the ideas or results presented in the paper.
Minor variations on a well investigated subject. (2)

> *** Quality of presentation: Rate the paper organization, the clearness of text and figures, the completeness and accuracy of references.
Substantial revision work is needed. (2)
