Many parts of the Southwestern United States would become deserts again without the waters of the Colorado River. A system of thousands of miles of canals, hundreds of miles of tunnels and aqueducts, and numerous dams and n bring Colorado River water to the area. The Imperial Valley in Southern California is an example of such a place; it is a vast and productive agricultural area that was once a desert. Today, 2,000 miles of canals irrigate the fertile land and keep it productive.

1. Which the following is mentioned in the passage as a way that Colorado River water gets to the Southwest?

(A) By truck

(B) In bottles

(C) In wells

(D) Through canals

Penjelasan: Jawaban (D) adalah yang tepat karena “stated” atau dijelaskan dalam bacaan. Hal itu dinyatakan dalam kalimat kedua.

2. According to the passage, the Imperial Valley

(A) Is a desert today

(B) Is located in Colorado

(C) Produces a lot of agricultural goods

(D) Does not require irrigation

Penjelasan: Kita dapat menemukan jawaban dalam kalimat ketiga. Disebutkan bahwa “Imperial Valley”;”**is a vast and productive agricultural area**“. Maka, jawaban yang tepat adalah (C).

PASSAGE TWO (Questions 3-5)

The ancestors of humans had a lot more hair than the humans of today; in fact, they had thick hair all over their bodies. This thick hair was necessary for protection against the cold of the Ice Ages.

As Earth got warmer, the hair began to thin out, except for on the head. The head hair has remained trough the evolutionary process, both as a sort of pillow to cushion the sensitive head when it gets banged around and as a sort of that to keep the head warm and prevent so much heat from escaping through the scalp.

3. Which of the following is true about the hair of the ancestors of human?

(A) There was not much of it.

(B) It covered their entire bodies.

(C) It was thin.

(D) It was not useful.

Penjelasan: Kita dapat menemukan jawaban pada kalimat pertama paragraf pertama. Maka, jawabannya adalah (B).

4. According to the passage, what happened as the temperature on Earth increased?

- (A) The hair on the head began to thin out.
- (B) The hair on the body remained the same.
- (C) The hair on the body got thicker.

(D) The hair on the body began to thin out.

Penjelasan: Jawaban (D) dapat ditemukan dalam kalimat pertama paragraf kedua.

5. The author indicates that one of the purpose of hair on the head is to

- (A) Fill up pillows
- (B) Help heat escape through the scalp
- (C) Ensure that the head is warm**
- (D) Make it easier to think

Penjelasan: Jawaban (C) dapat kita temukan dalam bacaan baris ke-6 dan ke-7.

(C) Is a vast and productive agricultural area
(D) Does not require irrigation

The ancestors of humans had a lot more hair than the humans of today; in fact, they had thick hair all over their bodies. This thick hair was necessary for protection against the cold of the Ice Ages.

Line
(5)

As Earth got warmer, the hair began to thin out, except for on the head. The head hair has remained through the evolutionary process, both as a sort of pillow to cushion the sensitive head when it gets banged around and as a sort of that to keep the head warm and prevent so much heat from escaping through the scalp.

3. Choose the drawing that shows the human ancestors that are described in the first paragraph

A B C D
4. According to the passage, what happened as the temperature on Earth increased?
(A) The hair on the head began to thin out.
(B) The hair on the body remained the same.
(C) The hair on the body got thicker.
(D) The hair on the body began to thin out.
5. The author indicates that one of the purpose of hair on the head is to
(A) Fill up pillows
(B) Help heat escape through the scalp
(C) Cushion the head
(D) Make it easier to think

Many parts of the southwestern United States would become deserts again without the waters of the Colorado River. A system of thousands of miles of canals, hundreds of miles of tunnels and aqueducts, and numerous dams and reservoirs bring Colorado River water to the area. The Imperial Valley in southern California is an example of such a place; it is a vast and productive agricultural area that was once a desert. Today, 2,000 miles of canals irrigate the fertile land and keep it productive.

1. Which of the following is mentioned in the passage as a way that Colorado River water gets to the southwest?
 - A. By truck
 - B. In bottles
 - C. In wells
 - D. Trough canals**

2. According to the passage, the Imperial Valley
 - A. Is a desert today
 - B. Is located in Colorado
 - C. Produces a lot of agricultural goods**
 - D. Does not require irrigation
